

Livin Works

Your Electrical Rewire Improvements

Your electrical rewire improvements may include works on the following:

- Light fittings
- Sockets
- Switches
- Fuse box
- External lighting
- Extractors
- Light pendants
- Smoke and carbon monoxide alarms

Through the improvement works, your Customer Liason Officer will give you a diary of works so you know what to expect each day. It will show who will be working in your home and the type of work they will be carrying out.

We will also let you know if any areas of your home need to be restricted for safety. This helps you plan your time and feel prepared while the work is taking place.

Before the team arrives, we may ask you to:

- ✓ Move some furniture if we require access to a certain area.
- ✓ Ensure that all ornaments, pictures and furniture are removed from the walls and also in adjoining rooms.
- ✓ Clear the floor areas that we will be working in, you will need to roll back carpets and lift floor finishes such as laminate flooring and tiling.
- ✓ Access may be required to your loft space. You will need to make sure that access is clear and items are packed away.
- ✓ Light shades and your own light fittings to be taken down and kept safely.
- ✓ Make sure that any animals or pets are adequately restrained to avoid accidents or injuries.

If you are unable to do any of the tasks listed above please get in touch with us and we will offer further support.

How long will a full or partial rewire take?

A partial rewire will take approximately two to three days and a full rewire will take approximately two to four days.

Will I need to move out?

You won't need to move out while the work is taking place. Some areas of your home may be restricted for short periods, and we will let you know about this before we start.

Will power be turned off?

There will be times where you will be without electricity during working hours but we will always notify you of this.

Will there be damage to walls or ceilings?

There will be plaster chases/ small channels in the walls and holes in the ceiling which we will repair afterwards. We will also supply decorating vouchers once the work is complete.

Will my fuse box be replaced?

If required we will change it to a modern consumer unit.
